

KING FreeForm[®]

King Kube

Assembly | User Guide

To avoid damage, **DO NOT** use a knife or scissors to open the packaging.
Use the cutting tool provided to safely open the box and compression bag inside.
Please follow the step-by-step instructions below:

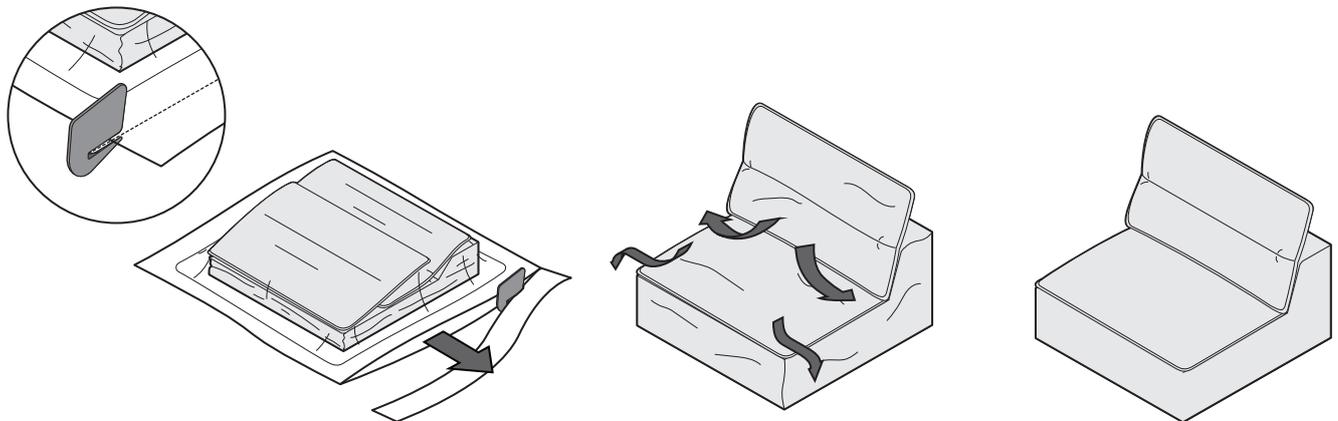

1

Warning

Your King Kube will start to expand as soon as the compression bag is cut open.

Your King Kube will recover back to its optimal appearance and comfort within 24 hours.

In this time the foam will become firmer and the fabrics will smooth out.

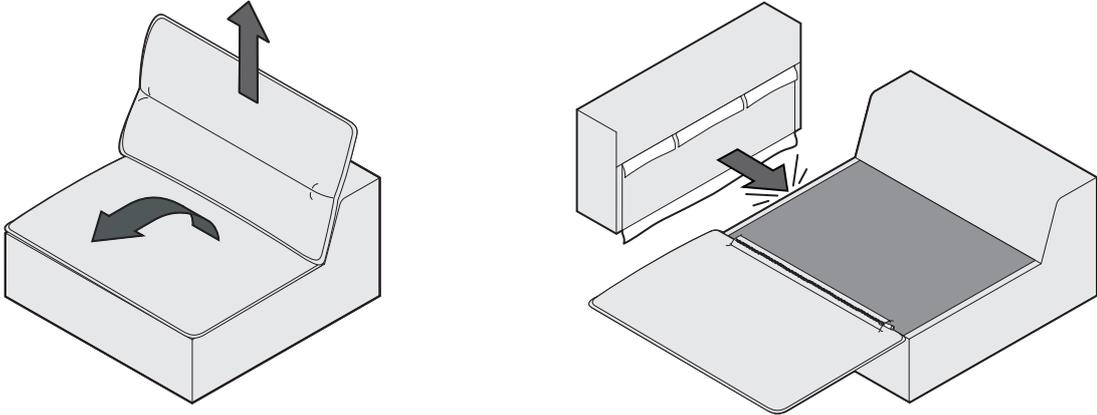

For an instant perfect finish, lightly steam the fabric cover.

Gently massage the foam corners and adjust the cover so the seams align neatly with the edges.

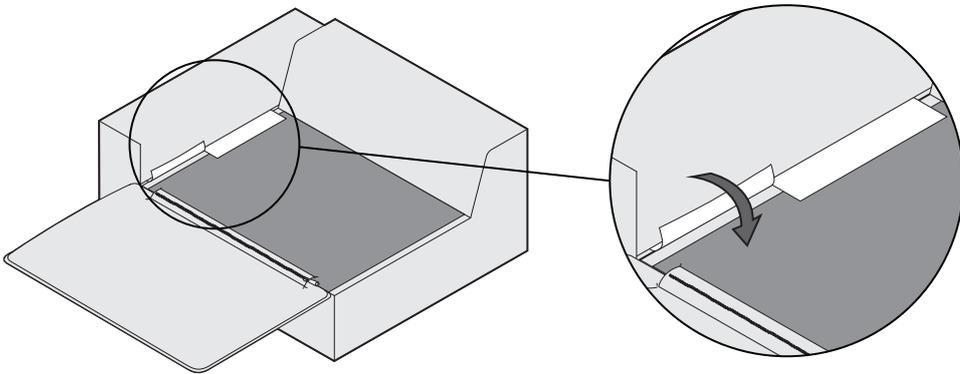

The product can be used while it settles.
