Rug Collection

# Rug Collection

## Rugs

### Size Comparison

## Antipodes Organic Rug (Indoor)

Organic Shape Rug

Composition:

100% NZ Wool

Space: Medium Foot Traffic

## Rug Underlays

The underlays may be placed together, and/or trimmed to size to create an underlay to best suit your rug size.

## Benefits of using rug underlays:

Helps keep your rug in place and provides an anti-slip base.

Protects your floor from scratching – over time even the softest rug with movement can scratch a floor.

Provides ventilation underneath your rug.

For hard surfaces (tile / timber / vinyl etc), place grey side down.

For soft surfaces (carpet), place white side down.

Adheres to rug with non-transfer environmental adhesive.

# Rug Collection
